

Fast, Eco-Friendly
and **Easy-To-Use**
Pressure Cleaner

About **Faurecia**

Founded in 1997, Faurecia has become a leader in the automotive industry in a mere 20 years.

With **290 sites**, including **30 R&D centers** and **110,000 employees** spread out over 35 countries, Faurecia is a global leader in our three businesses: Faurecia Seating, Faurecia Interiors and Faurecia Clean Mobility.

Faurecia Service, created in 2017, is our new team focused on the independent spare parts market.

FilterCleanBox

The Solution to Extend
the Life of your DPF

faurecia
Service

Keeping your Particulate Filter Clean *is a Must!*

Particulate Filters are seriously put to the Test

- Particulate filter life cycles are closely tied to the regeneration process required to transform soot into ashes
- Driving conditions (city driving, small trips) make it less possible to achieve adequate thresholds (engine temperature and rpm) to trigger regeneration
- Filters bogged down in soot crack, lose their ability to properly filter and need to be replaced sooner

More Stringent Technical Inspections

- Emissions regulations are becoming increasingly stringent, so it's vital to have a properly functioning particulate filter

Faurecia Service's Solution: FilterCleanBox

- A fast, effective and affordable cleaning solution that extends the life of your particulate filter
- An autonomous, compact and simple-to-operate machine
- An eco-friendly cleaning process

Faurecia Service recommends filter maintenance once per year.

FilterCleanBox

The Solution for Cleaning your Filter Effectively and Affordably

Technical Specifications

Size

1,200 x 800 x 2,000mm

Weight

350kg mounted on wheels

Noise level

Less than 75dB

Effectiveness

Ashes and residues eliminated

Installation

- Standard electric outlet
- Specific liquid cleaner and rinse developed and supplied by Faurecia Service

Vehicle coverage

- Filters smaller up to 500 x 500 x 1,500mm

Why use FilterCleanBox?

Benefits for mechanics:

- Make a profit quickly, with 150 operations per year
- Clean a filter in less than one hour
- Don't waste time training – our machine is simple to use
- Generate additional shop traffic
- Move our all-in-one machine around with ease (on wheels)

Benefits for drivers:

- Maintenance helps prevent costly particulate filter replacement
- Service is lightning fast
- Our method is good for the environment
